Information regarding taxation	Are you liable to tax outside Finland?
--------------------------------	--

The tax country is usually the country in which the person works or in which he/she has a permanent residence. A person may be liable to tax in multiple countries concurrently. For example, US citizenship (including dual or triple citizenship), a green card permit in the USA, residence in the USA or longer-term stay in the USA may cause tax liability to the USA. If you are uncertain whether you are liable to tax outside Finland, we recommend that you contact your tax expert.
