WHY INVEST IN EUROPEAN CORPORATE BONDS?

Evli Corporate Bond

Evli Corporate Bond Fund

- Invests mainly in European Investment Grade and High Yield bonds. Will also invest in non-rated (Nordic) bonds
 - Currency hedged for all non-€ investments
 - Max 20% non-rated
- The credit quality of the fund is always at least BBB–
 - In normal situation, the weight of Investment Grade in the fund is 75% and High Yield is 25%
 - High Yield weight max. 35–40%
- Excellent long term track record with stable portfolio management team
 - Mikael Lundström PM since 14.9.1999
 - Jani Kurppa as co-PM since 15.5.2014

Evli Corporate Bond	
Invests into	European investment grade and high yield crossover bonds
Key differentiators	Active bottom-up selection in European crossover segment, outperforming EUR IG with beta <1
Excess return vs market ¹	+1,4% pa vs EUR IG (ER00) last 3y
Main restrictions	<ul style="list-style-type: none"> – Average rating of fund BBB– – Non-rated max 20%, avg. 10–15% – Dur: index ± 1 years (soft) – Currency always hedged for non-€ investments
Benchmark	<ul style="list-style-type: none"> – 75% BoA EMU Corporates Index – 25% BoA Euro High Yield, BB–B Constrained
Fund size (6/2024)	230 MEUR
Strategy launch date	09/1999
Current PM	09/1999, since strategy launch

¹ Fund performance is for institutional series after fees, excess return is annual excess return over the indicated time period

Unique long term track record

Exceptionally long track record since 1999

- Fund has performed excellent since launch
- Same PM since launch (co-PM since 2013)
- Excellent risk/return profile – 5 stars from Morningstar (Institutional-series, 03/2024)

Excellent strategy

- Adding safest High Yield to the portfolio increases the return without adding considerable risk
- During the last 10 years Evli Corporate Bond has had clearly outperformed the €IG- market with a beta of 0.93 to the market

Yields higher than for years

- Rise in yields means that the funds yield to maturity is higher than it has been for years
- YTM at the time of investment has in the past correlated with the fund’s future returns

Institutional share against IG–market *)

The minimum investment for share class Evli Corporate Bond IB is EUR 10 000 000.
The IB share class was launched on 22.05.2017.
The return presented in the chart is simulated until 22.05.2017 based on the return of the B share but applying the 1.0 percent management fee of the IB series

*)ICE BofA Euro Corporate Index (ER00) has been the official benchmark for the fund since 1.3.2024.
Until 1.3.2024, the official benchmark for the fund has been IOE BofA BB–B Euro High Yield Constrained Index 25%, IOE BofA Euro Corporate Index EUR 75%.

INVESTMENT PHILOSOPHY AND PROCESS

Evli Corporate Bond

Investment Philosophy and Strategy

DISCIPLINED

- Creditworthiness is the most important factor in selecting investment targets
- We assess the TRUE credit quality, NOT relying on official rating
- The coupon is a central part of the return

ACTIVE

- We invest in issuers that we like, regardless of their weight in the index
- Active utilization of the movability of corporate bonds between different credit ratings
- Focus on stable companies
- Turnover usually below 1

DYNAMIC

- Strong and experienced team enables fast decision making
- We venture to analyse and invest in companies whose bonds have dropped significantly (for example bank subordinated debt)

RISK AWARE

- **Good diversification, 80–120 companies**
- The weight of single issuers in the portfolio usually max 5%, generally only the top 1–3 holdings would be at or above 3%
- Fund's average credit rating min BBB–

Investment Process

SCREENING

>1000 name universe

Investment universe:

- Euro-denominated IG bonds (at least EUR 300 million)
- Euro-denominated HY issuers (at least EUR 200 million)
- Non-rated (Nordic) bonds

Focus on bonds that have:

- Positive free cash flow
- Decreasing net leverage
- Increasing net interest coverage

New issues

Attractive pricing

- Cheap to sector or market
- High absolute yield
- Low cash price

COMPANY ANALYSIS

~250 names

Company analysis:

- Financial Statement Analysis
- Industrial & Economic Outlook
- Interest Groups
- Bond Terms
- Bond Liquidity
- Independent research providers (Reorg, Lucror, CreditSights, etc.)
- ESG

Valuation

- Relative value
- Spread / Leverage
- Peer group

PORTFOLIO

~100 names

Overview and diversity:

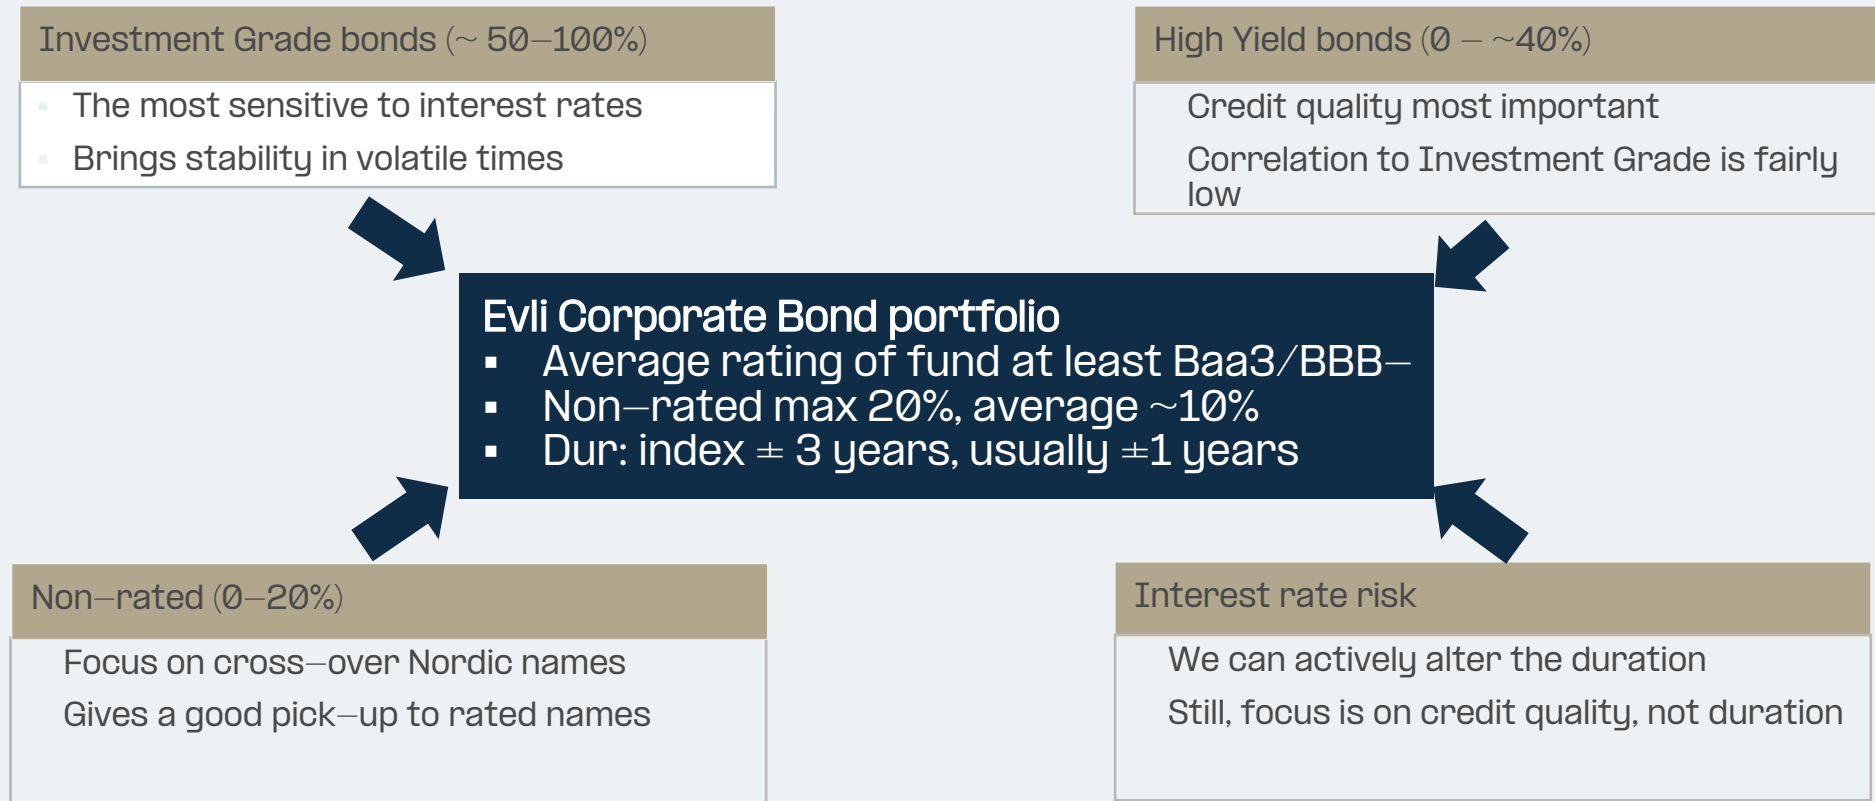

- Diverse portfolio with 80–120 companies
- Across many sectors
 - Many credit ratings
 - High yield weight based on market environment

Risk Control:

- Largest holdings are max 5% of fund
- Usually only 1–3 are above 3%
- Cash levels normally 2–4% of fund
- The credit quality of the fund as a whole is at least BBB–
- The minimum credit rating of each individual bond is B–

Portfolio Construction

- Aim is to build a well performing portfolio where the risk are contained
- Focus on credit quality; not duration

Company analysis

- Main focus on companies that over the cycle:
 - generate consistent positive free cash flow
 - debt leverage decreasing & debt coverage increasing
 - Are priced at an attractive spread compared to their risk

How ESG is taken into account in investment decisions?

ESG factors will influence our analysis of the company, industry as well as our thoughts on the management and owners.

Portfolio Managers

- Focus on issues that are quantifiable in terms of credit quality
- For example: Damage to brands, legal risk
- Company meetings are important and we will check availability as well

Investment Decision

ESG team and Executive Group

- Monitoring international principles, ESG scores, CO2 measurement
- Decides which sectors will be excluded
- Decides which companies will be excluded from all funds

ESG examples from Evli's corporate bond funds

ENVIRONMENTAL

Will affect certain sectors more (oil, mining). Examples:

- Invested in the Volvo Car new green bond as the company committed to a new industry leading electric strategy
- Did not participate in Volkswagen Green bond issue due to UN Global Compact fail after the diesel scandal

SOCIAL

Applicable to all sectors. Examples:

- Sold Danske Bank when the first news of the money laundering scandal broke
- Sold Bayer when first verdict in Round-Up case

GOVERNANCE

Applicable to all sectors. Examples:

- Did not participate in Wirecard issue in Sept 2019 due to media reports on irregularities, despite an IG rating
- Did not buy Rallye (Groupe Casino) due to issues with up-streaming dividends to parent company

Evli Fixed Income Team: Evli Corporate Bond

Mikael Lundström

CHIEF INVESTMENT OFFICER

At Evli since 1996. Specialised in corporate bond and fixed income portfolio management. Mikael has invested in the European High Yield market since 1999 and has been the portfolio manager of Evli Corporate Bond fund and Evli European High Yield fund since launch. Mikael has received numerous awards and in 2014 he was a nominee for Morningstar European Fixed Income Manager of the Year.

Jani Kurppa

SENIOR PORTFOLIO MANAGER

M.Sc. (Econ.), Turku School of Economics. 20 years of experience in the fixed income markets, specializing in corporate bond portfolio management. Prior to joining Evli's fixed income team Jani worked e.g. as Portfolio Manager at eQ Asset Management, Fides Asset Management and State Treasury.

Broad-based collaboration within the team to leverage our strong position in different credit classes

More information and the fund's statutory documents (e.g. key investor information document, fund prospectus) are available at <https://www.evli.com/en/products-and-services/mutual-funds>

Considerations and Risk Factors

The fund's investment activities aim to achieve a higher long-term return on assets than the benchmark. The fund's return expectation and risk are higher than for funds that invest solely in government bonds.

The average remaining exercise period (duration) of the fund's fixed income investments may be \pm 3 years compared to the interest rate risk of the benchmark index.

The fund's overall risk is also affected by the following risk factors, which may not be fully addressed by the fund's risk profile:

- Liquidity risk: The risk that a financial instrument cannot be bought or sold within the planned time or at the desired price.
- Credit risk: The uncertainty regarding the bond issuer's ability to repay.
- Derivatives risk: The use of derivatives to obtain additional returns may increase the fund's risk and return expectation. The use of derivatives for hedging purposes or for risk management may reduce risk and return expectation. The use of derivatives may increase counterparty risk and operational risk.

Further information on the risks associated with the fund is available in the Key Information Document (KID) and the Fund Prospectus.

If an investor wishes to give feedback about the fund or receive more information, the investor may contact Evli at: Evli Plc, Investor Service, PO Box 1081, FI-00101 or fundinfo@evli.com, or may contact the local distributor of the fund which has sold the fund to the investor. Investors may also send a message via our website: www.evli.com/en/contact-us. Information on how Evli handles client feedback is available at: www.evli.com/en/client-information.

Portfolio positioning August 2024

- We prefer mid–curve (3–7 yrs) IG–bonds
 - Curve is flat, and these should benefit when ECB starts cutting rates
- Still modest 3% weight in AT1s
 - Banking bonds are cheap on a long–term horizon, but better value in senior and LT2 bonds
- We have increased our HY weight again
 - Mainly from new issues
- Portfolio should be well positioned for short term rates coming down
 - Good carry for the overall portfolio

AMBITION

"We want to be the forerunner in responsible wealth management in the Nordics, and in this way help our clients in managing their wealth to support a sustainable future."

Evli is a forerunner in responsible investing

Four pillars of responsible investing at Evli

Principles for Responsible Investment

- Decided by Evli's Responsible Investment (RI) Executive Group

ESG¹ –integration in investment process

- Portfolio managers responsible for daily implementation

Engagement and active ownership

- Managed by dedicated RI Team, ESG also part of the discussion at portfolio managers' company meetings

Reporting

- Comprehensive and transparent reporting at fund and client level

#1

in Sustainable investing
according to Finnish institutions
2017–2023²

¹ ESG = Environmental, Social ja Governance

² KANTAR Prospera "External Asset Management Finland" 2023, 2020, 2019, 2018, 2017 and SFR 2022, 2021, 2017

Monitoring, engagement and active ownership

UN Global Compact, the UN Guiding Principles on Business and Human Rights, the OECD Guidelines for Multinational Enterprises and Evli's climate principles compliance are screened quarterly.

All norm violation cases assessed by Responsible Investment team, which decides to start the engagement or to exclude the company.

Main engagement themes are:

- International norm violation
- Mitigating climate change
- Transparent ESG reporting
- Corporate Governance

Active ownership:

- ESG issues are regularly discussed in all meetings with company management
- Evli attends general meetings in Finland, but does not do proxy voting abroad

Collaborative engagement initiatives such as Climate Action 100+, CDP Investor Letters, Nature Action 100 and PRI¹ led collaborative engagements.

¹Principles for Responsible Investment is an umbrella organization for responsible investment supported by the UN.

Exclusions in practice in all Evli funds

- With 0% revenue threshold:
 - Controversial weapon manufacturers
 - Companies manufacturing peat for energy production
- With 5% revenue threshold:
 - Tobacco producers, adult entertainment producers and companies practicing controversial lending
- With 10% revenue threshold:
 - Thermal coal and oil sands companies
- In addition, some funds exclude:
 - Companies with more than 5% of their revenues coming from gambling, alcohol or weapons manufacturing
 - Companies in extraction and mining of fossil fuels or thermal coal
- International norm violations can also lead to an exclusion; however, this is only a last resort.
- In addition, since March 2022 Russia is excluded as a region where investments can be made. The exclusion covers both Russian companies and the Russian state.

Evli's climate change principles

1. Analysis

- Monitoring the emissions of companies in Evli's funds through fund-specific carbon footprints.
- Funds' carbon footprints are also assessed by Evli's Responsible Investment team.

2. Exclusion

- Avoiding investments in companies that gain a significant part of their revenue (at least 10%) from thermal coal (mining and energy production) and oil sands extraction.
- Also, companies manufacturing peat for energy production are excluded (0%).

3. Engagement

- Encouraging companies to report the climate impacts of their operations, and possible risks vs. benefits.
- Participating in several investor joint engagements and letters, such as Climate Action 100+ , CDP Investors Letters, and Global Investor Statement to Governments on the Climate Crisis.

4. Reporting

- Funds' carbon footprints are reported publicly.
- Evli has published in 2020 first TCFD¹ report of its climate risks.

¹Task Force on Climate-related Financial Disclosure, www.fsb-tcfd.org

Evli's climate targets

Evli aims for carbon neutrality of its own operations by 2025, and carbon neutrality of investments by 2050 at the latest.

The interim target for the investments –50% reduction in indirect emissions from investments by 2030 (compared to 2019).

We are aware that a credible long-term carbon-neutral goal requires systematic work and sufficiently ambitious interim targets to support it.

WHAT OPPORTUNITIES DOES THE MARKET CURRENTLY OFFER?

Evli Corporate Bond – Overview of the
market

Evli's funds vs. the market

31.7.2024

Market outlook

- Global rate hike cycle is over, Swedish Riksbank and the ECB already delivered first cuts
- Weakening macroeconomic data in the US boosted expectations for Fed rate cuts
- Market pricing for rate cut path continues to be a source of volatility during H2
- The Q2 reporting season was in general on the weaker side compared to market estimates, but broadly neutral from credit investor's perspective
- Credit fundamentals are healthy and refinancing risk is relatively low
- Company outlooks for the H2 turned more cautious, reflecting the expectations of softer economic development
- The corporate bond market offers attractive spreads and yield level
- Rate cuts offer a strong support for total returns as yield curve is expected to move lower
- Currently inverted yield curve is set to normalize when short end of the yield curve shifts down with rate cuts

CENTRAL BANK POLICY IS STILL A SUPERIOR MARKET DRIVER, CLOSE FOCUS ON INCOMING MACROECONOMIC DATA

FOR CREDIT INVESTOR, STRONG CREDIT FUNDAMENTALS AND RELATIVELY LOW REFINANCING RISK OUTWEIGHS ECONOMIC HEADWINDS

THE CORPORATE BOND MARKET OFFERS AN ATTRACTIVE YIELD AND IS SET TO BENEFIT FROM RATE CUTS
