Investment philosophy

Study what has worked

- Value investing has existed for more than 100 years
- Academic consensus is a good starting point

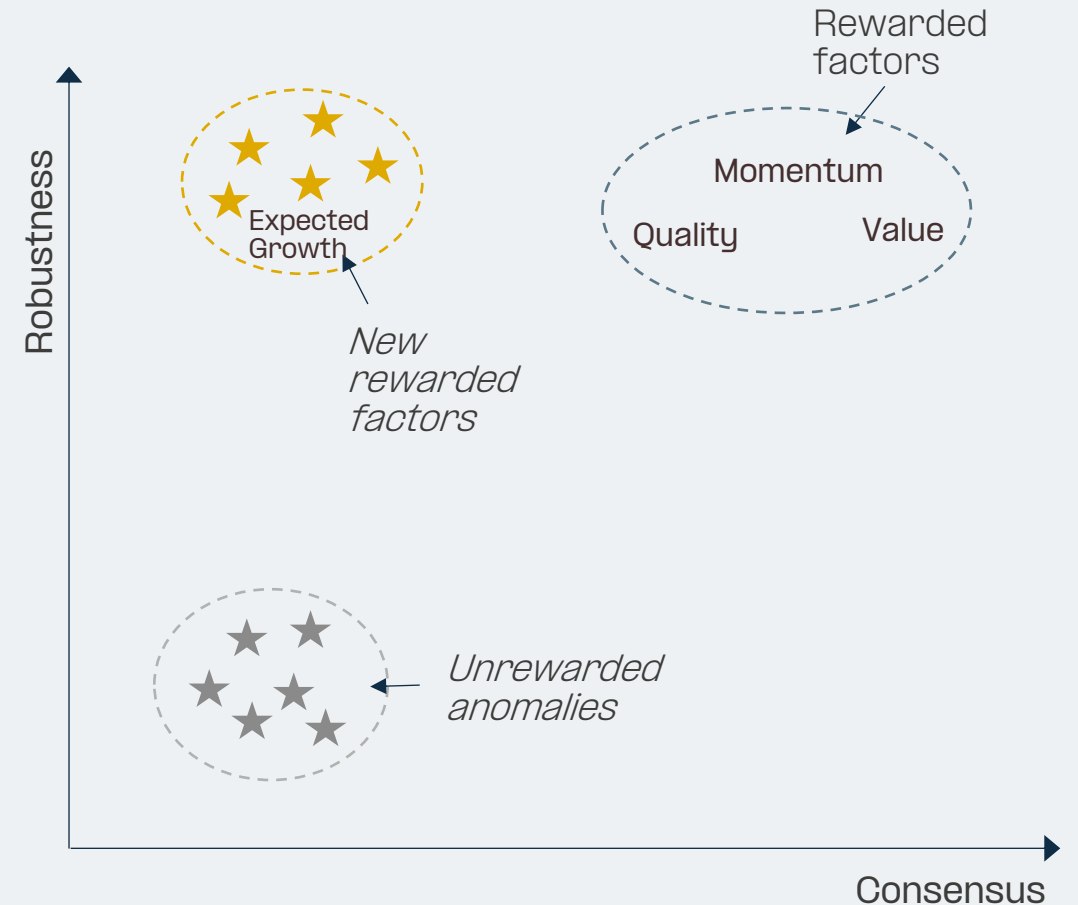

Don't get lost in the factor zoo

- Harness academic, practitioner and in-house research
- Robust empirical evidence as a guideline
- True factors are characteristics that predict returns

Be open-minded

- Financial theories are not always robust
- New data may bring new dimensions
- New ideas may be tomorrow's consensus

The Zoo of Factors

Growth Done Right

How to harvest the return premia in growth stocks

- Growth tends to be expensive
- But not all growing companies are too expensive
- A smart growth strategy is successful in identifying rewarded growth stocks

Quality
Growth

=

Growth firms
which grow
faster than
expected

What Type Of Growth Firms Have Outperformed?

- + Expected growth
- + Profitable
- + R&D–biased
- + Recent outperformers

- Past growth
- Unprofitable

Quality Growth firms have outperformed

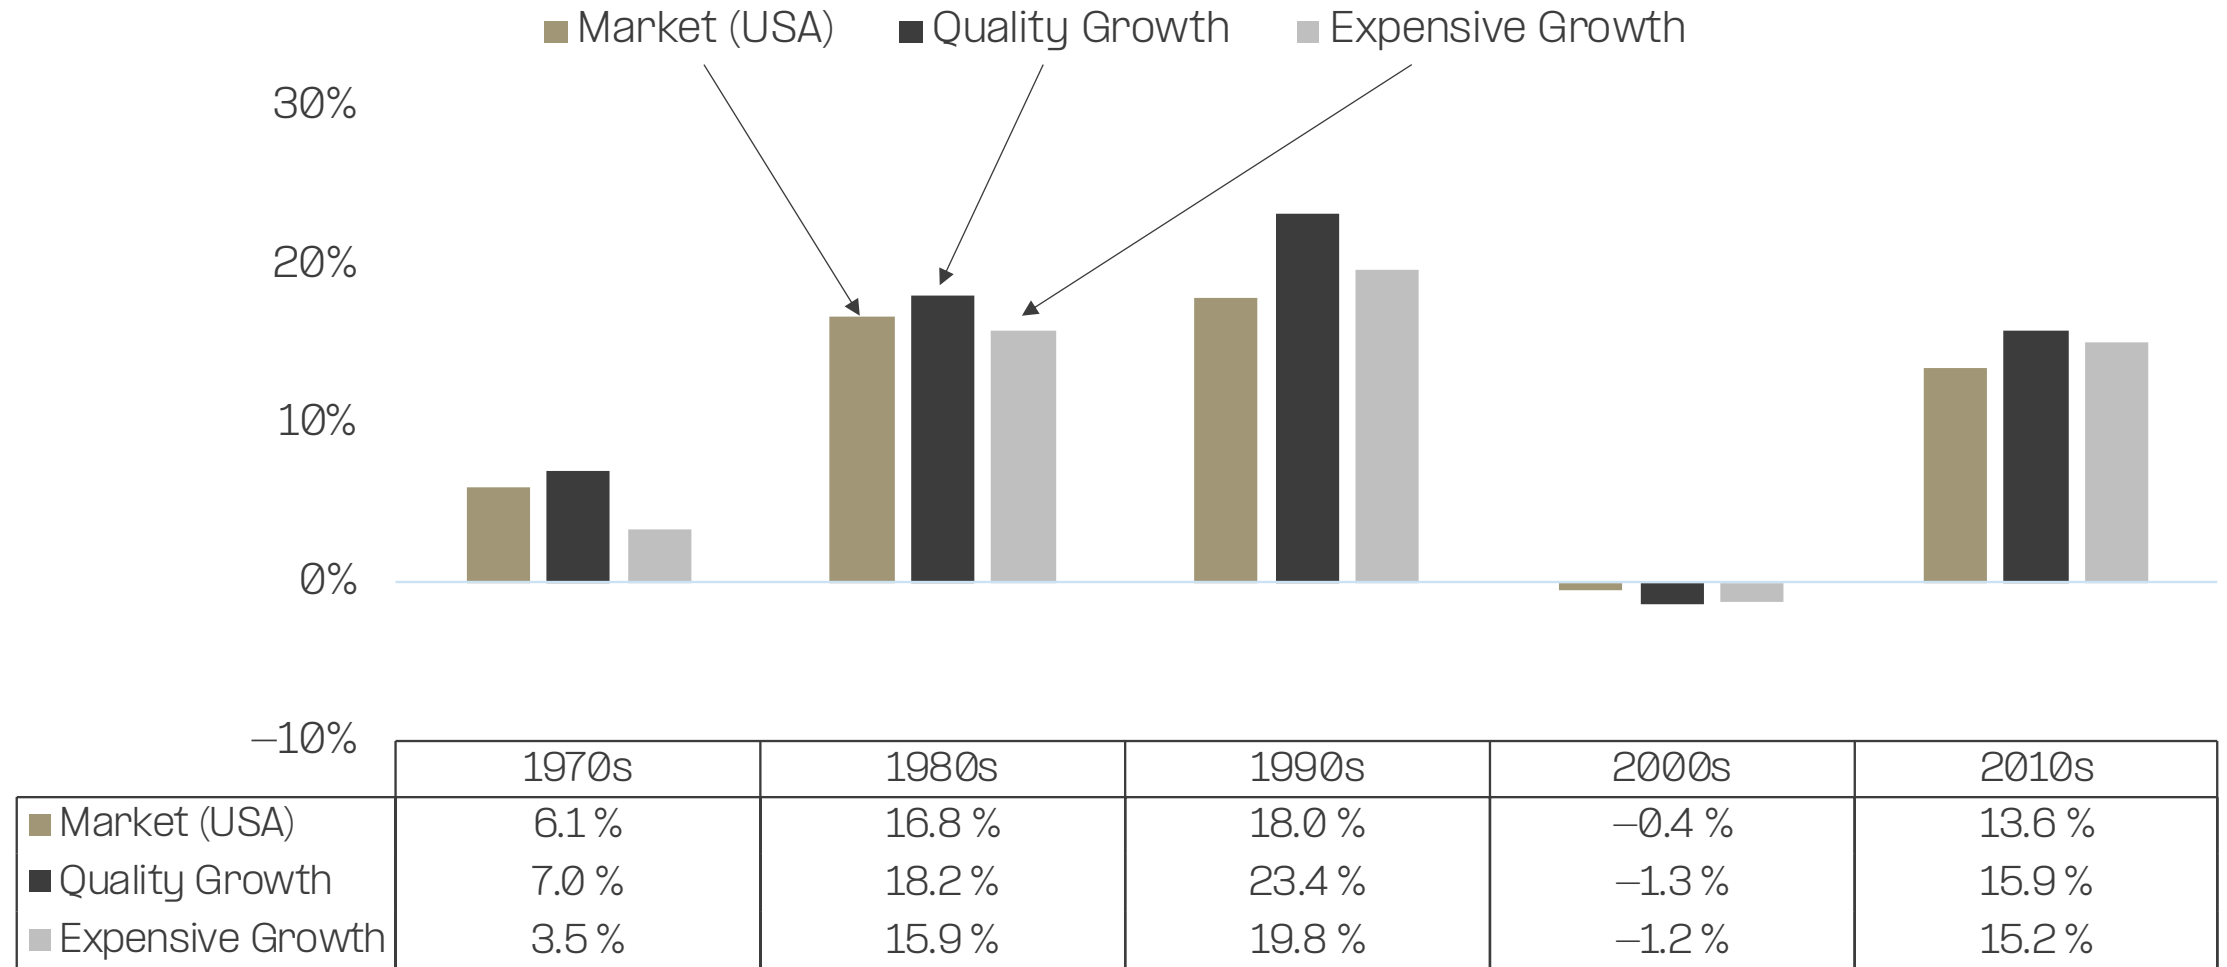

(Past performance is not an indicator of future returns)

Source: historic simulations and do not necessarily illustrate real returns. Data source: <http://global-q.org/testingportfolios.html>

Quality Growth has generated good returns

Investors have been better off in avoiding expensive growth companies
(Past performance is not an indicator of future returns)

Source: Evli. Returns are annual averages among US large-caps during different decades and are based on historic simulations and do not necessarily illustrate real returns. Data source: <http://global-q.org/testingportfolios.html>

CONFIDENTIAL

Growth Done Right

Harvesting Quality Growth

We invest into growth companies which show strong:

– Investment growth

- Profitability growth
- Operational cash flow
- High valuation of assets
- R&D spending

– Growth momentum

- Recent earnings and revenue growth
- Strong performers
- Earnings surprises

Quality Growth strategy, simulation¹

(Past performance is not an indicator of future returns)

Europe Quality Growth strategy simulation 2001–2023

The picture illustrates the income simulation of the growth strategy, which shows gross returns without expenses. The growth strategy is based on a high-quality growth strategy with an emphasis on growth companies that show investment growth and growth momentum. The investment universe is mid and large-caps (MSCI Europe index). The Portfolio is market weighted. The portfolio has been rebalanced quarterly, the strategy has utilized Evli's ESG principles and also taken into account the UCITS 10/40 rule.

Performance data

	Annualized Return	Volatility	Return/Vol
Portfolio	6,50%	17,04%	0.45
Index	5,49%	18,61%	0.38

*For illustrative purposes only. The returns are based on a historical simulation and is not based on real returns. Past performance is not an indicator of future returns.

Evli Europe Growth fund

- Quality growth companies have performed strongly over the long-term
 - expensive growth firms may be risky for the investor.
- Growth factors based on academic research have produced strong returns in the past.
- The fund's growth strategy strives to invest in large companies which grow faster than expected.

Successful growth investing comes down to selecting companies that grow – and do so faster than expected

AMBITION

"We want to be the forerunner in responsible wealth management in the Nordics, and in this way help our clients in managing their wealth to support a sustainable future."

Evli is a forerunner in responsible investing

Four pillars of responsible investing at Evli

Principles for Responsible Investment

- Decided by Evli's Responsible Investment (RI) Executive Group

ESG¹ –integration in investment process

- Portfolio managers responsible for daily implementation

Engagement and active ownership

- Managed by dedicated RI Team, ESG also part of the discussion at portfolio managers' company meetings

Reporting

- Comprehensive and transparent reporting at fund and client level

#1

in Sustainable investing
according to Finnish institutions
2017–2023²

¹ESG = Environmental, Social ja Governance

²KANTAR Prospera "External Asset Management Finland" 2023, 2020, 2019, 2018, 2017 and SFR 2022, 2021, 2017

Monitoring, engagement and active ownership

UN Global Compact, the UN Guiding Principles on Business and Human Rights, the OECD Guidelines for Multinational Enterprises and Evli's climate principles compliance are screened quarterly.

All norm violation cases assessed by Responsible Investment team, which decides to start the engagement or to exclude the company.

Main engagement themes are:

- International norm violation
- Mitigating climate change
- Transparent ESG reporting
- Corporate Governance

Active ownership:

- ESG issues are regularly discussed in all meetings with company management
- Evli attends general meetings in Finland, but does not do proxy voting abroad

Collaborative engagement initiatives such as Climate Action 100+, CDP Investor Letters, Nature Action 100 and PRI¹ led collaborative engagements.

¹Principles for Responsible Investment is an umbrella organization for responsible investment supported by the UN.

Exclusions in practice in all Evli funds

- With 0% revenue threshold:
 - Controversial weapon manufacturers
 - Companies manufacturing peat for energy production
- With 5% revenue threshold:
 - Tobacco producers, adult entertainment producers and companies practicing controversial lending
- With 10% revenue threshold:
 - Thermal coal and oil sands companies
- In addition, some funds exclude:
 - Companies with more than 5% of their revenues coming from gambling, alcohol or weapons manufacturing
 - Companies in extraction and mining of fossil fuels or thermal coal
- International norm violations can also lead to an exclusion; however, this is only a last resort.
- In addition, since March 2022 Russia is excluded as a region where investments can be made. The exclusion covers both Russian companies and the Russian state.

Evli's climate change principles

1. Analysis

- Monitoring the emissions of companies in Evli's funds through fund-specific carbon footprints.
- Funds' carbon footprints are also assessed by Evli's Responsible Investment team.

2. Exclusion

- Avoiding investments in companies that gain a significant part of their revenue (at least 10%) from thermal coal (mining and energy production) and oil sands extraction.
- Also, companies manufacturing peat for energy production are excluded (0%).

3. Engagement

- Encouraging companies to report the climate impacts of their operations, and possible risks vs. benefits.
- Participating in several investor joint engagements and letters, such as Climate Action 100+ , CDP Investors Letters, and Global Investor Statement to Governments on the Climate Crisis.

4. Reporting

- Funds' carbon footprints are reported publicly.
- Evli has published in 2020 first TCFD¹ report of its climate risks.

¹Task Force on Climate-related Financial Disclosure, www.fsb-tcfd.org

Evli's climate targets

Evli aims for carbon neutrality of its own operations by 2025, and carbon neutrality of investments by 2050 at the latest.

The interim target for the investments –50% reduction in indirect emissions from investments by 2030 (compared to 2019).

We are aware that a credible long-term carbon-neutral goal requires systematic work and sufficiently ambitious interim targets to support it.
