# INVESTMENT PHILOSOPHY AND PROCESS

Evli Nordic

# Investment philosophy

- **Cash is King.** Invest in companies with good long-term cash flow characteristics and strong debt coverage
- **See the world as it is.** Focus on what company management has done, not what they say they will do
- **Don't overpay.** In company valuation, use cautious assumptions. It reduces the risk of overpaying for a stock
- **Don't dance where the elephants play.** The fixation among investors with companies' sales, reported earnings, earnings growth, book values and consumer brands makes many companies "crowded trades". Be ready to invest in less well-known or "out-of-favor" companies as well
- **Be disciplined.** Adhering to the chosen investment criteria makes a stock selection process disciplined and repeatable. It gives a fair shot at achieving good long-term returns without the need for perfect timing

# Investment strategy

- Focus on Nordic companies that
  - Generate cash flow
  - Have strong debt coverage
  - Are underpriced
  
- Bottom–up approach
  - No benchmark, sector, geographical or market cap constraints within Nordics
  
- Disciplined and repeatable stock selection based on rigorous investment criteria

Find free cash flow,  
and do not overpay.

# Find free cash flow and don't overpay

## Stock selection

We invest in companies that generate cash flow, have strong debt coverage, and are underpriced

## Active

No benchmark, sector or geographical constraints within Nordics. Sector and country weights are a result of stock selection. Company positions usually with equal weights

## No banks

The valuation methodology we use is not suitable for most banks or insurance companies, hence the fund does not usually invest in them

## No currency hedging

The fund does not hedge currency exposures

## Multi-cap

We invest in companies of all sizes. Compared to the benchmark index, the portfolio often has a bias towards small and medium size companies

## Deviations from index

The fund may deviate substantially from the benchmark index

# Workflow

# ESG integration

- Focus on companies that generate free cash flow, have strong debt coverage, and are underpriced
- Integration of ESG related cash outflows that are material, probable and quantifiable

## FINANCIAL STATEMENT ANALYSIS

Long term free cash flow  
Debt coverage  
Forensic accounting ratios  
Off balance sheet commitments  
Margin-of-Safety

## RI TEAM AND EXECUTIVE GROUP

Decides on principles and practical procedures  
Decides which activities and companies are excluded  
Leads engagement activities  
Monitors ESG scores, CO2 measurement, reporting

## Investment Decision

## ENVIRONMENT

Restoration, rehabilitation, possible engagement within controversies in water conflicts, toxic releases, environmental impact on communities, packaging waste, electronic waste, carbon emissions...

## SOCIAL

Integration of material, probable and quantifiable aspects like litigation, penalties, fines, costs, and possible engagement vis-à-vis controversies in labour management, collective bargaining, discrimination, workforce diversity...

## GOVERNANCE

Audit concerns, accounting transparency, consolidation practices, accounting investigations, cross share holdings, corporate structure, variable interest entities, high impact governance events...

# ESG examples – Evli Global Equities Team

## ENVIRONMENTAL

Researching a mining company, PM became aware of serious environmental violations and handed the company over to RI Team for further analysis. Process led to conduct-based exclusion of company from Evli's investment universe.

## SOCIAL

A large retailer faced anti-union concerns and bribery allegations. Situation was assessed by PM, RI Team and Steering group, which led to monitoring and engagement through company meeting. Process had positive outcome and portfolio position was held.

## GOVERNANCE

An IT company was found to be a variable interest entity for which ownership structure and shareholder rights to cash flows were unclear. An electrical equipment company had material weakness in internal controls for the past several years. PMs decided not to invest in these companies.

# Portfolio management team

**Hans-Kristian Sjöholm**

HEAD OF GLOBAL EQUITIES,  
SINCE 2010

M.Sc. (Econ.) Hans-Kristian Sjöholm has been working in the finance sector since 1998. Prior to Evli, he worked as Managing Director, Research Director and Portfolio Manager at Carnegie Asset Management.

# Evli's Global Equities family of funds

- Our family of funds using the same investment philosophy consists of seven funds investing in different geographical areas:
  - Evli Europe (current strategy since 1 April 2010)
  - Evli Global (current strategy since 31 May 2011)
  - Evli North America (current strategy since 30 September 2011)
  - Evli Japan (current strategy since 30 September 2011)
  - Evli Nordic (current strategy since 1 November 2012)
  - Evli GEM (launched 25 January 2016)
  - Evli Global X (launched 31 May 2018)
- Evli manages € 1,343.6 million (31.5.2024) in this family of funds

# Considerations and risk factors

The fund's investment activities aim to earn a return which, in the long term, exceeds the return of the benchmark index.

As the fund's assets are invested in equities or equity-linked securities, the fund unit value can fluctuate significantly within a short period. The fund's investments carry an exchange rate risk.

The fund's overall risk is also affected by the following risk factors, which the fund's risk profile does not necessarily address fully:

- Liquidity risk: The risk that a financial instrument cannot be bought or sold within the planned time or at the desired price.

Further information on the risks associated with the fund is available in the Key Information Document (KID) and the Fund Prospectus.

If an investor wishes to give feedback about the fund or receive more information, the investor may contact Evli at: Evli Plc, Investor Service, PO Box 1081, FI-00101 or [fundinfo@evli.com](mailto:fundinfo@evli.com), or may contact the local distributor of the fund which has sold the fund to the investor. Investors may also send a message via our website: [www.evli.com/en/contact-us](http://www.evli.com/en/contact-us). Information on how Evli handles client feedback is available at: [www.evli.com/en/client-information](http://www.evli.com/en/client-information).

# AMBITION

"We want to be the forerunner in responsible wealth management in the Nordics, and in this way help our clients in managing their wealth to support a sustainable future."

# Four pillars of responsible investing at Evli

## Principles for Responsible Investment

- Decided by Evli's Responsible Investment (RI) Executive Group

## ESG<sup>1</sup> –integration in investment process

- Portfolio managers responsible for daily implementation

## Engagement and active ownership

- Managed by dedicated RI Team, ESG also part of the discussion at portfolio managers' company meetings

## Reporting

- Comprehensive and transparent reporting at fund and client level

# #1

in Sustainable investing  
according to Finnish institutions  
2017–2023<sup>2</sup>

<sup>1</sup> ESG = Environmental, Social ja Governance

<sup>2</sup> KANTAR Prospera "External Asset Management Finland" 2023, 2020, 2019, 2018, 2017 and SFR 2022, 2021, 2017

# Monitoring, engagement and active ownership

UN Global Compact, the UN Guiding Principles on Business and Human Rights, the OECD Guidelines for Multinational Enterprises and Evli's climate principles compliance are screened quarterly.

All norm violation cases assessed by Responsible Investment team, which decides to start the engagement or to exclude the company.

Main engagement themes are:

- International norm violation
- Mitigating climate change
- Transparent ESG reporting
- Corporate Governance

Active ownership:

- ESG issues are regularly discussed in all meetings with company management
- Evli attends general meetings in Finland, but does not do proxy voting abroad

Collaborative engagement initiatives such as Climate Action 100+, CDP Investor Letters, Nature Action 100 and PRI<sup>1</sup> led collaborative engagements.

## ENGAGEMENT ACTIVITIES 2023

COLLABORATIVE ENGAGEMENT INITIATIVES

3349  
companies

PARTICIPATING IN GENERAL MEETINGS

27  
general meetings

INDEPENDENT ENGAGEMENT

37  
times

<sup>1</sup>Principles for Responsible Investment is an umbrella organization for responsible investment supported by the UN.

# Exclusions in practice in all Evli funds

- With 0% revenue threshold:
  - Controversial weapon manufacturers
  - Companies manufacturing peat for energy production
- With 5% revenue threshold:
  - Tobacco producers, adult entertainment producers and companies practicing controversial lending
- With 10% revenue threshold:
  - Thermal coal and oil sands companies
- In addition, some funds exclude:
  - Companies with more than 5% of their revenues coming from gambling, alcohol or weapons manufacturing
  - Companies in extraction and mining of fossil fuels or thermal coal
- International norm violations can also lead to an exclusion; however, this is only a last resort.
- In addition, since March 2022 Russia is excluded as a region where investments can be made. The exclusion covers both Russian companies and the Russian state.

# Evli's climate change principles

## 1. Analysis

- Monitoring the emissions of companies in Evli's funds through fund-specific carbon footprints.
- Funds' carbon footprints are also assessed by Evli's Responsible Investment team.

## 2. Exclusion

- Avoiding investments in companies that gain a significant part of their revenue (at least 10%) from thermal coal (mining and energy production) and oil sands extraction.
- Also, companies manufacturing peat for energy production are excluded (0%).

## 3. Engagement

- Encouraging companies to report the climate impacts of their operations, and possible risks vs. benefits.
- Participating in several investor joint engagements and letters, such as Climate Action 100+ , CDP Investors Letters, and Global Investor Statement to Governments on the Climate Crisis.

## 4. Reporting

- Funds' carbon footprints are reported publicly.
- Evli has published in 2020 first TCFD<sup>1</sup> report of its climate risks.

<sup>1</sup>Task Force on Climate-related Financial Disclosure, [www.fsb-tcfd.org](http://www.fsb-tcfd.org)

# Evli's climate targets

Evli aims for carbon neutrality of its own operations by 2025, and carbon neutrality of investments by 2050 at the latest.

The interim target for the investments –50% reduction in indirect emissions from investments by 2030 (compared to 2019).

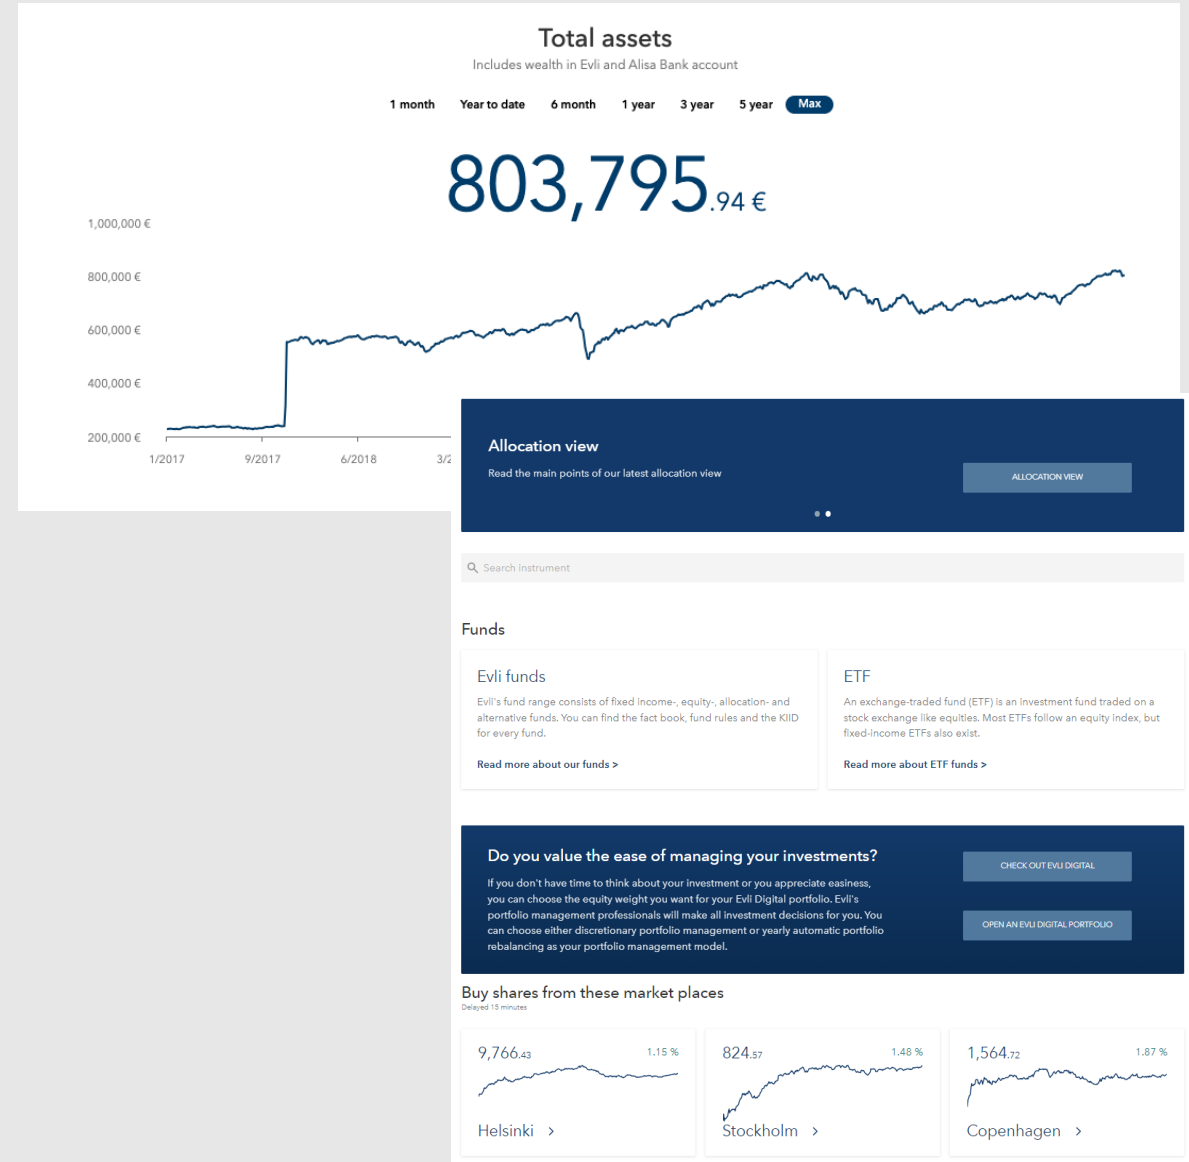

We are aware that a credible long-term carbon-neutral goal requires systematic work and sufficiently ambitious interim targets to support it.

# AT YOUR SERVICE

Our mission is to increase clients' wealth according to their individual targets.

# At your service

- Distinctive and comprehensive reporting
  - My Evli online service
  - Monthly fund reviews
  - Monthly custody statement
